FINANCE AND COMMERCE.

Washingors, Monday Evening, Aug. 16.
Nothing of startling freshness and importance
has occurred in District financial circles to change
the tone of the markets from that which prerailed at the close on Saturday. The guaranteed 3-55 bonds continue dull for large lots at high prices. The 8 per cent. greenbacks are picking up as tarpayers are beginning to become more anxious to liquidate their indebtedness for special anxious to liquidate their indebtedness for special tax on the favorable terms which the bonds offer. It should be borne in mind that the tax assessments are greatly in excess of the bands issued in anticipation of this tax and for raising money to carry out the improvement plant, and that there will be a time when it will be impossible to get bonds, as the issue will soon be exhausted. As yet, however, propers are contracting to pay taxes for \$5 per cent, being a reduction in favor of the taxpayer of 15 per cent. In buying the bonds at \$400.00013 brokers are remunerated by the accrued interest.
